

CUSTOM TOOL DESIGN & MANUFACTURING

**YOUR CUSTOM
IS OUR STANDARD**

UNSURPASSED QUALITY

Our quality control program is in place throughout the manufacturing process. Every custom tool is precisely inspected to ensure **unmatched quality** and **repeatability**. We specialize in Carbide, HSS, Cobalt and Coolant-Fed cutting tools made to your specifications **on-state-of-the-art CNC machines. From complete customs** made from a blank to the **modification of standard tools** to enhance the function of off-the-shelf tooling. **Material specific geometries** and **edge preps** are applied along with the **most advanced PVD or CVD coatings**.

Back Deburring Mills	Port Contour Cutters
Chamber Reamers	Step Drills
Dovetail Cutters	Tapered Tooling
Engraving Tools	Threading Inserts
Firearm Tooling	Top Notch Style Grooving Inserts
Multi-Step Tools	...and more

If your company has a
unique machining
challenge, Valley Tool is
the company to turn to.

INDUSTRY'S SHORTEST LEAD TIMES

We will take you from custom design to delivery in as short as 24 hours. Valley Tool's continued investment in the most advanced equipment and software provides us the ability to hold tolerances as tight as .0001" while meeting our customer's expectation of an on-time delivery.

NO MINIMUM ORDER QUANTITY

Whether you need one piece or a production run, our **40+ years of experience** allow us to **cost effectively** design and manufacture your tools no matter the size or complexity.

WHAT OUR CUSTOMERS SAY

We have been using Valley Tool's custom tools and reconditioning services for over a decade. We are more than satisfied with their high standards and willingness to please their customers. We see it in the performance of their tooling. The combination of their next day delivery and their pricing of their products is second-to-none. Valley Tool is always ready to take on any new project we might have to help reduce machining costs and increase production. Our future with Valley Tool is very positive. THANK YOU to everyone at Valley Tool for everything you do.
