Castrol METALWORKING **FLUIDS & LUBRICANTS**

**Available in
pails, drums
& totes!**

Our on-site fluid engineers deliver high-quality products, technical service and support with solutions to keep you competitive in the constantly changing market.

- ✓ Coolants
- ✓ Gun Drilling Oils
- ✓ Rust Preventatives
- ✓ Stamping Fluids
- ✓ Cleaners
- ✓ Honing Oils
- ✓ Spindle Oils
- ✓ Waylubes
- ✓ Greases
- ✓ Hydraulic Oils
- ✓ Straight Oils
- ✓ and more!
- ✓ Grinding Oils

STOCKED LOCALLY!

RISK-FREE GUARANTEED TEST TRIAL

On-Site Analysis

With Castrol's comprehensive product range, we match the right product to your processes while consolidating products and reducing your inventory.

Laboratory Analysis: Microbial, PH, Titration & Concentration Examinations

Tracking and monitoring of fluids to optimize and sustain the performance of your operations.

Supply Castrol Fluids & Additives

Treatment of your system as needed to keep it running as efficient as possible.

Features of Castrol	How CASTROL does it:	Benefits in YOUR shop:
Increased Sump Life	Castrol is formulated with advanced additives and technologies that help to minimize the growth of bacteria and fungi, reduce foam, and prevent the formation of unpleasant odors.	Reduced cost of ownership due to less waste.
Enhanced Tool Life	Castrol fluids and coolants are designed to provide excellent lubrication, reducing friction and heat generated during machining processes.	Helping in extending tool life by reducing wear and tear.
Improved Surface Finish	Castrol is formulated to provide superior surface finish by reducing the occurrence of surface imperfections like burrs, scratches and roughness.	Leading to better quality products and reduced rework.
Increased Productivity	Castrol products have high cooling and heat dissipation properties, helping to maintain stable operating temperatures during machining.	Aiding in preventing overheating of the workpiece and machinery.
Corrosion Protection	Castrol Fluids form a protective layer on the metal surfaces, preventing them from coming in contact with moisture and corrosive elements.	Helping in reducing the risk of rust and corrosion, extending the lifespan of the equipment and components.
Environmental Benefits	Castrol is formulated to have low levels of volatile organic compounds (VOCs) and are free from harmful substances like chlorine, sulfur and phosphorous.	Ensuring a safer and healthier working environment for your operators.
Compatibility and Versatility	Castrol offers a wide range of products that are compatible with various metals, alloys and machining processes.	Making them suitable for a wide range of applications, providing flexibility and convenience of users.

“

WHAT OUR CUSTOMERS SAY

"Thank you for helping us switch to Castrol MB50 coolant. Since converting, we have experienced significant increases in sump life resulting in less downtime and increased productivity. In addition to its outstanding product quality, it has also helped us achieve better surface finishes and eliminate dermatitis issues we had with other products." ~ Matt P.
